To the
parents and legal guardians
of the pupils visiting
Grundschule Hohenhausen

Kalletal, 11.11.2020

Dear parents,

due to the dramatically increasing numbers of corona infections, we would like to call attention to the importance that your child **is first of all not allowed to visit the school with symptoms of the corona virus**. These symptoms could be: cough, elevated temperature, fever, shortness of breath, loss of smell and taste, rhinitis, sore throat, head ache and limb pain or general debility.

In case of the appearance of these symptoms, an individual medical check-up is necessary before school attendance is allowed.

If your child only has a rhinitis, keep it at home for 24 hours surveillance. If no other symptoms are appearing, your child can come back to school. In case of uncertainty, please address the family doctor / the paediatrician. Please check the health condition of your child every day.

In these challenging times, it is highly important for us as a school that you as the parents support us and talk about the significance of keeping distance, the rules of hygiene, the coughing and sneezing etiquette plus the correct use of face covering over the mouth and nose.

Please do not hesitate to address us if there are any questions, suggestions or worries left.

With kind regards,

(headmistress)
