Dear parents,

because of one corona case in class 3a, we want to inform you how to act in quarantine.

The quarantine is an important, necessary method. You await if flu-like symptoms are appearing. This waiting is important to avoid an overrun on the doctor's offices and give other suspected cases priority.

You have to follow the instructions of the public health department! A negative corona test **does not end the quarantine!** A test is only done if symptoms are occurring. Please observe your children and get in contact with the school administration if flu-like symptoms are appearing. We as a school will approach the centre of diagnostics in Kreis Lippe. The staff will fix appointments for swabs for you.

All pupils in quarantine have already gotten material and plans with exercises for home-schooling in the next week or will receive them by post. If you or your children have any questions, please contact us via telephone or E-mail.

By now, we don't know of more cases of corona. Those involved acted very honestly and faithfully. We hope that this dealing and our hygiene and distance concept in school can play a part in avoiding more corona cases. Therefore, it is very important that the hygiene rules are still followed and that you as parents get in contact with the school if there is any suspected case of corona in your family (also in your family environment) early.

Please let us act circumspectly and with respect and empathy in these challenging times.

We also want to point out that we inform you about the latest developments on the website of our school: www.gshohenhausen.de

Kirsten Pielsticker and the team of Grundschule Hohenhausen

PS: The following link provides information about the possibilities of compensation if you have got any loss of earnings because of childcare.
